

TEXAN  NATURE™

Oil & Gas Rights-of-Way: a Route for Recovery

Amy G. Snelgrove

Rights-Of-Way in Texas

RRC: 466,623 miles of pipelines

TXDOT: 79,000 miles of roads

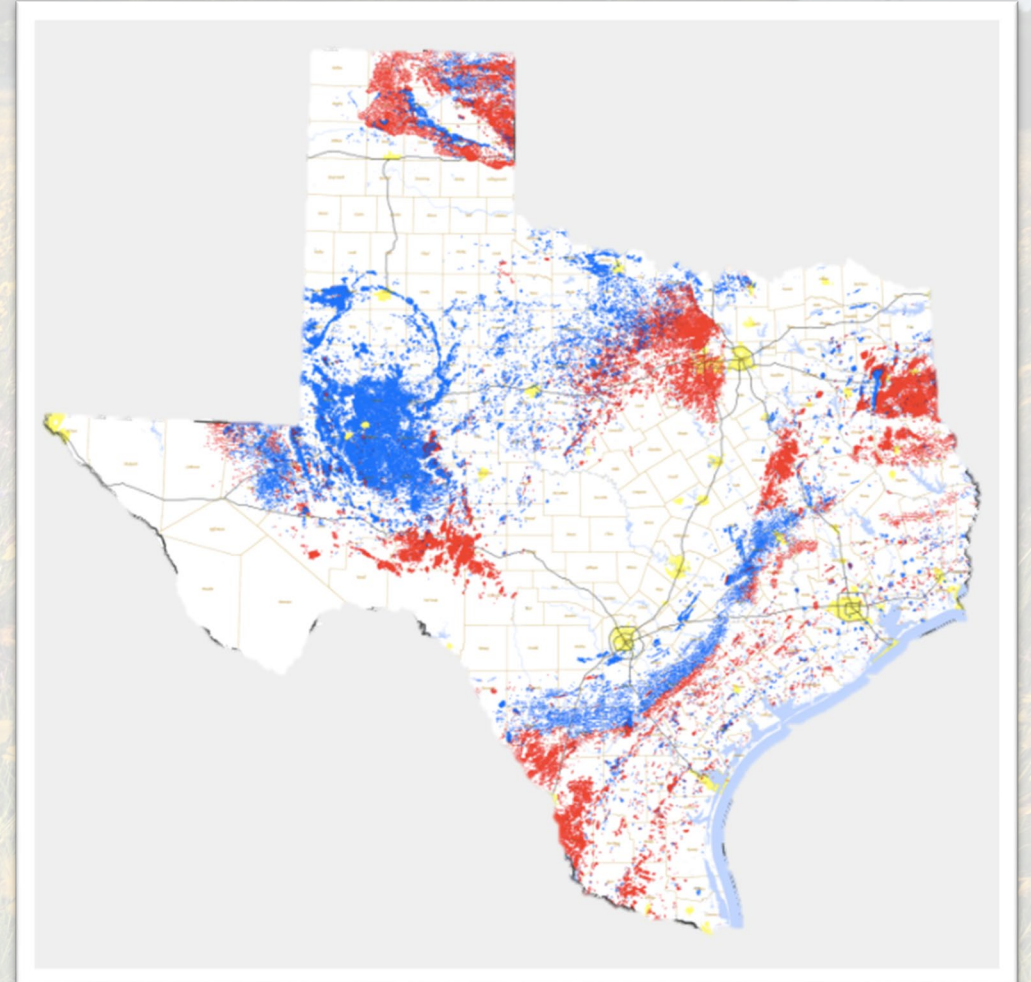

10,384 miles of railway

ERCOT: 38,000 miles of transmission lines

~594,007 miles

594,007 miles x ~200 ft (.038 mile)

= 22,500 sq. miles or **14.4 M acres**

Pollinator Habitat on Oil & Gas Right-of-Ways Project

Goals

- Seed oil & gas downsized pad sites and pipeline ROW native habitat for the monarch butterfly and other wildlife species
- Develop SOPs for native habitat restoration
- Summarize and share with Industry
- Encourage Industry-wide implementation

Pollinator Habitat on Oil & Gas Right-of-Ways Project

Primary Initial Partners

- Texan by Nature
- EOG Resources, Inc. (San Antonio Division)
- National Fish & Wildlife Foundation
- Still Water Foundation

Additional partners

- Private Landowners
- EOG seeding contractor
- Native seed suppliers
- Texas A&M AgriLife Extension
- Texas Parks and Wildlife Department (TPWD)
- Natural Resources Conservation Service (NRCS)

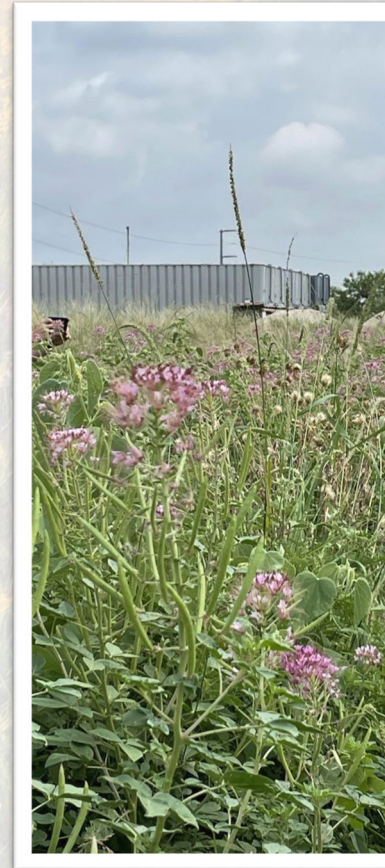

Pollinator Habitat on Oil & Gas Right-of-Ways Project

On-the-ground Results

- 175 acres native habitat

Lessons Learned/Key Takeaways

- “It takes a village” = unique opportunity
- Education is essential
- Learn to compromise
- Organizational support

The logo for Texas By Nature features the word "TEXAN" in blue, a brown silhouette of the state of Texas with the word "by" in white inside it, and the word "NATURE" in blue. A small "TM" trademark symbol is located to the right of "NATURE".
