

OPERATION POLLINATION

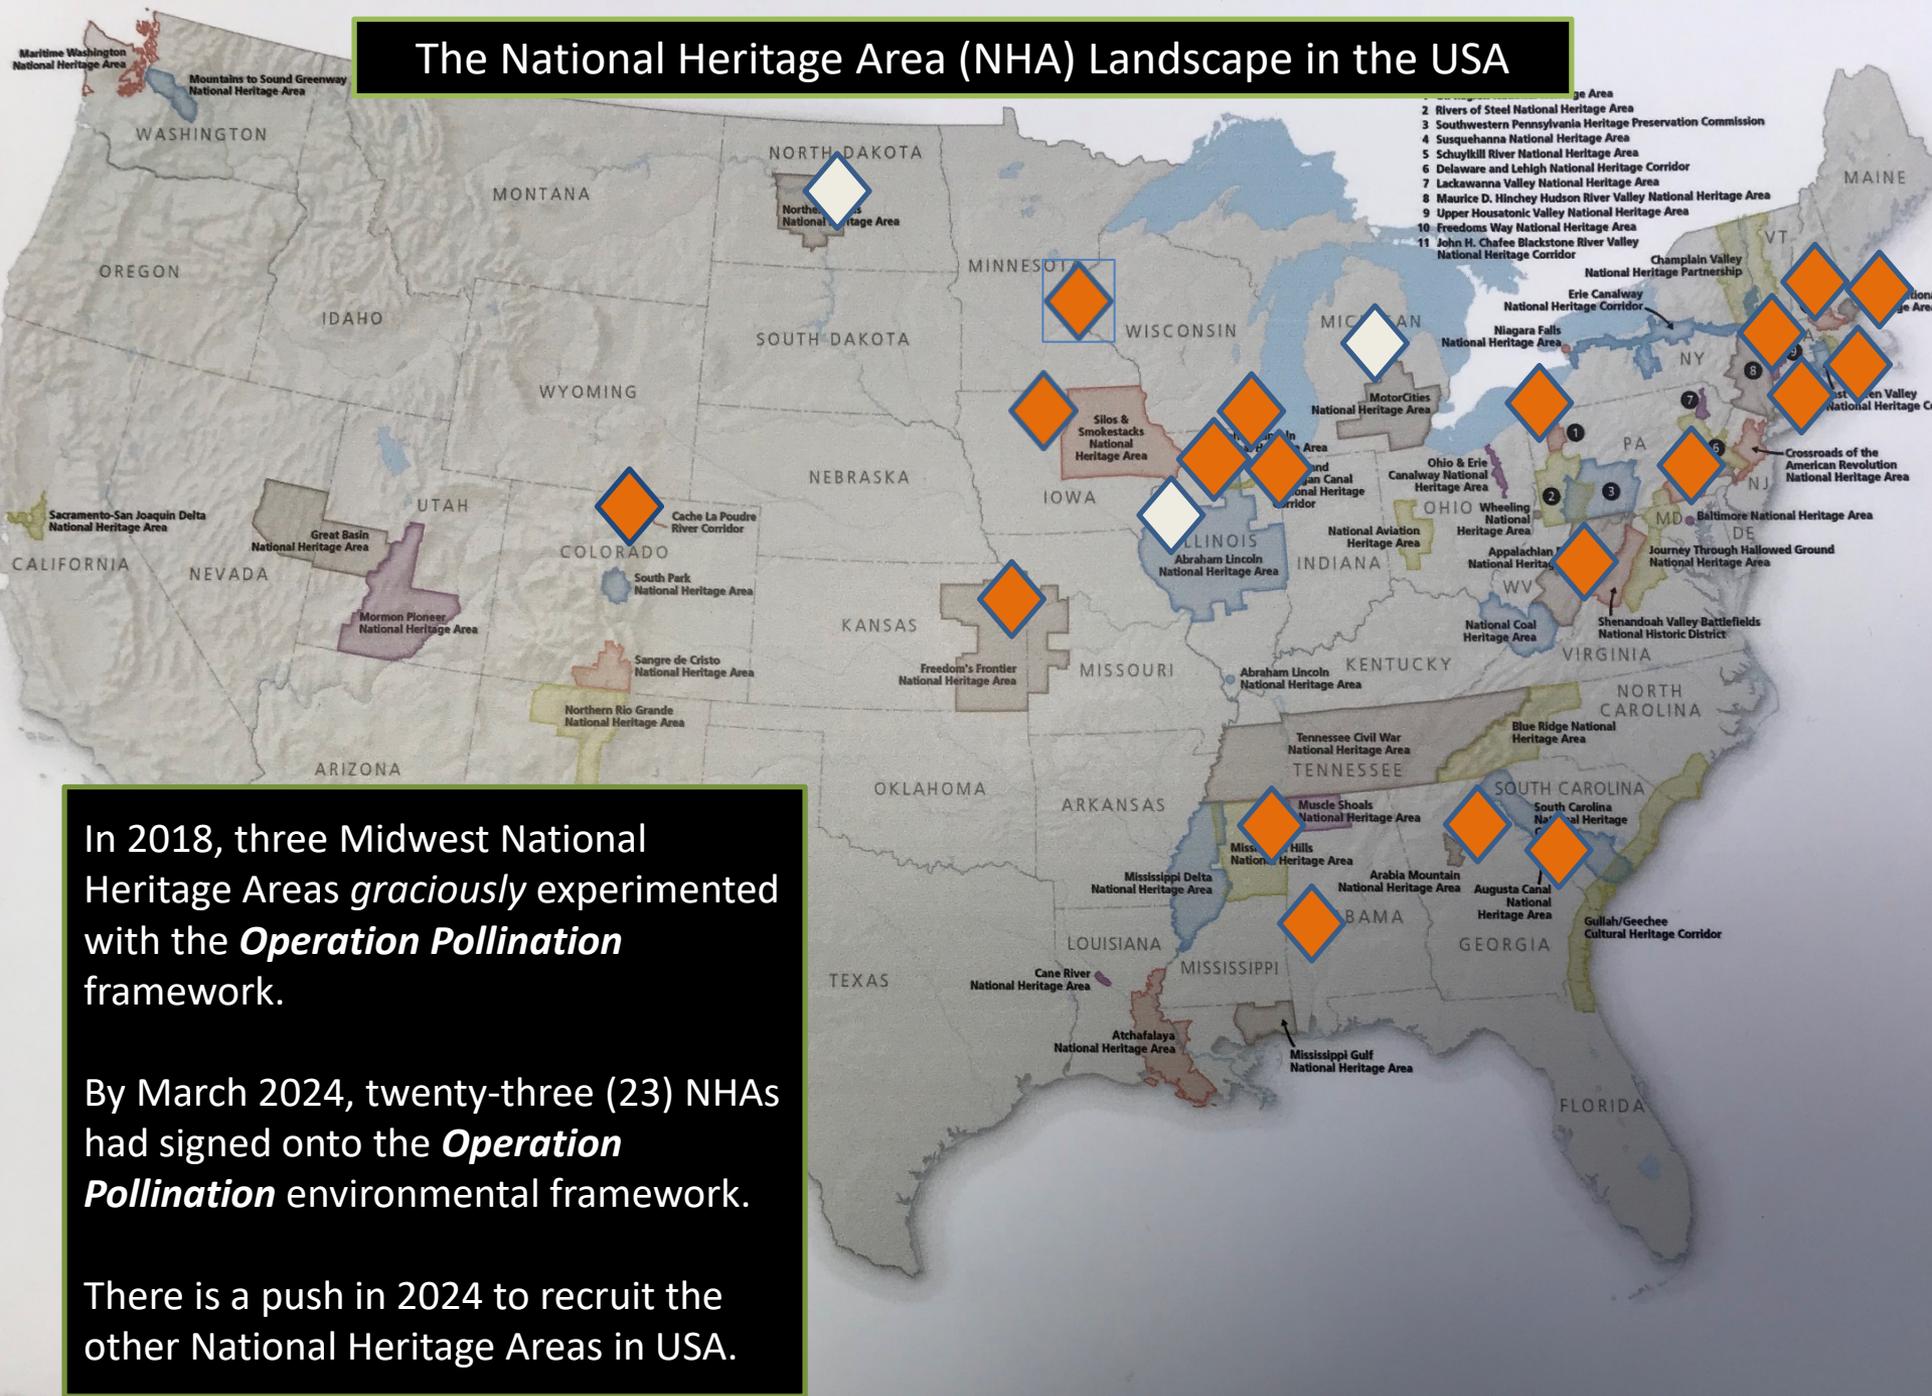

Old wine barrels delivered. Will be cut in half for planters in the spring!

Starts with signing a *Pollinator Resolution* and/or *Pollinator Pledge*.

The National Heritage Area (NHA) Landscape in the USA

In 2018, three Midwest National Heritage Areas *graciously* experimented with the **Operation Pollination** framework.

By March 2024, twenty-three (23) NHAs had signed onto the **Operation Pollination** environmental framework.

There is a push in 2024 to recruit the other National Heritage Areas in USA.
