

U.S. Fish & Wildlife Service

CHUCK TRAXLER

U. S. Fish and Wildlife Service Update

Chuck Traxler
Acting Midwest Regional Director

THE
MONARC

U.S. FISH AND WILDLIFE SERVICE UPDATE

- Center for Pollinator Conservation
- Monarch butterfly update
- Ongoing conservation efforts

CENTER FOR POLLINATOR CONSERVATION

- Working together to address declining pollinator populations in North America.
- Collaborative space for land managers, decision and policy makers, scientists, program leaders and others to explore, coordinate and share best practices and approaches.

KEY THEMES

- Highlighting the importance of pollinators
- Understanding and addressing threats and opportunities
- Coordination and collaboration across the agency and with partners

MONARCH UPDATE

- 2020 determined that listing was warranted
- Proposed rule, if warranted, November 2023
